

eBook Setup Instructions – Kobo and Sony Reader

Puke Ariki subscribes to two eBook databases – ePukapuka and Bolinda. Go to the Puke Ariki Library website for more information <http://www.pukeariki.com/Libraries/E-books>

To read eBooks on your Kobo you will need to connect your device to a PC or Laptop and transfer titles across. Depending on the model of Sony Reader you may need to connect to your computer, or you may be able to borrow books directly from within Applications/Public Library (models T3 and above). Unfortunately Kindle eReaders do not currently work with Library licenced content.

Getting up and running with eBooks from the Library:-

1. Connect to the internet
 2. Adobe Digital Editions controls the rights management of the eBooks you borrow including how long you can keep the book for and when it will expire. You will need to **install Adobe Digital Editions** on your PC or Laptop. Go to Adobe website to download and install <http://www.adobe.com/support/digitaleditions/downloads.html>
 3. Create an **Adobe ID** by going to where you Sign In on the Adobe website and selecting “Get an Adobe ID”. Make a note of the email address and password you use to create your account:
-
4. When prompted, enter your Adobe ID to **Authorize** your computer and device
 5. You only need to complete these steps once, then your device will stay Authorized
 6. You may also like to install the Kobo or Sony software to enable access to the bookstore and other options for your device.

ePukapuka:-

7. Go to the Puke Ariki Library website <http://www.pukeariki.com/Libraries/E-books> and click on the ePukapuka logo to open this eBook database
8. Click “Sign In” on the top Right of the screen and select Puke Ariki Libraries from the drop down box when asked to select your library. Use your **Library Barcode number** and **PIN** to log in. Ask a friendly library staff member if you need help setting up a PIN for your Library account.
9. You can now browse or search for an eBook to borrow:-
 - a. Use the genres available in the menu at the top to narrow down your search
 - b. Type a title or author into the search box to see if it is available
 - c. Look on the left hand side of the screen where you can view “**All titles**” or just those “**Available Now**”.
 - d. You can choose to view the **Covers** or by a **List**. The List option is useful to see how many copies there are, a blurb and how many holds might be on the item.
10. When you have found a book you would like to borrow, click on the **Borrow** button. You may also wish to add other titles you are interested in reading at a future time to your “**Wish List**”.
11. The **Account** section shows your Bookshelf, Holds, Lists, how many books you have out and when your books are due. From the **Bookshelf** you can **Download** the book in EPUB format and it will automatically open in Adobe Digital Editions or Sony eReader software.
12. Plug your device into the PC or Laptop with the USB cable. It will appear on the left hand side in Adobe Digital Editions. Click on the book copy it across to your device. Remember to safely eject your device from the computer before unplugging it.
13. To return the book, go to your Account online in ePukapuka where you can Return or Delete the book.

Bolinda:-

14. Borrowing books from Bolinda is very similar to using ePukapuka. Follow the steps above to go to the Bolinda database from the Puke Ariki Library website, Sign In with your Library Barcode and PIN, Borrow a book, Download and copy across to your device. To return the book, go to your Account online in Bolinda where you can Return the book.

If not returned early, book titles will automatically expire on their due date and return themselves

eBooks for Everyone sessions are held regularly at Puke Ariki and the Community Libraries. Check the What’s On guide or the Puke Ariki website for times or contact the library on ph: 759 6060 email: library@npdc.govt.nz for further assistance
