MINECRAFT

CLUB!

HOW TO CONNECT TO OUR VIRTUAL MINECRAFT CLUB

This guide will show you, step by step, how to connect to our Virtual Minecraft Club.

IP: pukearikiminecraft.mc.gg
Port: 50005
Note: The maximum amount of players on our server at any one time is 40. If it is full you might have to wait and try again.

To connect to our Bedrock Edition server, you must be on one of the following supported devices; Minecraft ©Windows 10 Edition, Minecraft for iOS, Minecraft for Android, PlayStation®, Xbox, Nintendo Switch™ (Bedrock Edition is not supported by Java Edition) you will also need to be logged into your ©Microsoft account.
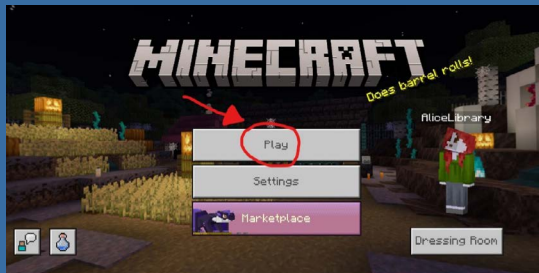

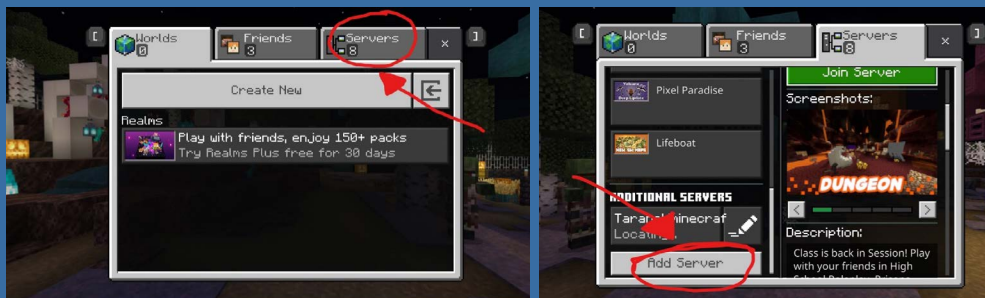

Puke Ariki | NPDC

STEP 1

On your supported device start the Minecraft application, and click the **Play** button on the title screen.
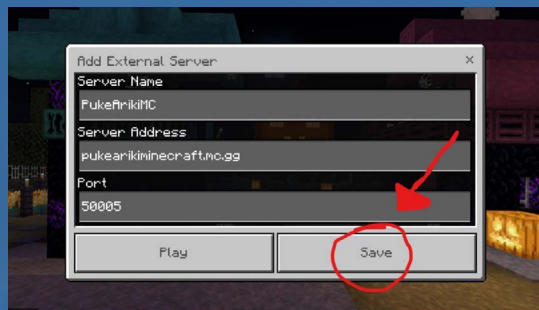

STEP 2

On the next screen, click the **Servers** tab at the top, then click **Add Server.**

STEP 3

You will then need to enter our IP address and port as shown below. The server name can be anything of your choosing as this is only visible on your device. Be sure to hit the **Save** button so that your server is added to your server list.

STEP 4

You should then see your server listed under **Servers.** Simply click/tap on your server and you will be connected!

YOU ARE NOW READY TO JOIN OUR NEW VIRTUAL MINECRAFT CLUB!
